

Vestigo® Verify

The Leading Solution for Efficient Clinical Research Monitoring

Vestigo® Verify, an essential component of the Vestigo Solution ecosystem, empowers Clinical Research Associates (CRAs) and monitors with unparalleled efficiency in monitoring investigational drug services and protocol data. By granting monitors secure account access, Vestigo Verify enables seamless review and download of data, optimizing the monitoring workflow.

Key Features and Benefits

- **Streamlined Monitoring Visits & Enhanced Accessibility:** Vestigo Verify facilitates easy access to site and study documents, direct visit scheduling, and supports remote monitoring—significantly reducing the need for on-site presence and increasing flexibility.
- **Boosted Accountability:** Through features like Visit Notes and authorization for inventory transactions, Vestigo Verify enhances accountability, allowing monitors to efficiently manage records, reports, and action items.
- **Robust Functionality:** Enjoy paperless documentation, secure access to accounts and protocol visits, efficient communication tools, and comprehensive online support. Vestigo Verify also offers virtual learning opportunities for easy platform navigation.
