

# Precision Printing and Labeling by Vestigo

Unlock seamless, secure printing solutions for healthcare and research with Vestigo. Powered by McCreadie Group, Vestigo ensures data confidentiality with advanced VPN Configuration. Streamline workflow with label printing, securely transmitting information from app to printer.

## Key Features

**Secure VPN Printing:** Safeguard patient health information (PHI) with Vestigo's VPN Configuration for label printing.

**Easy Printer Setup:** Simplify printer integration with Site-to-Site VPN Tunnel and IP address configuration. Engage your network/firewall teams with assistance from our Vestigo support team to start the set-up process.

**Custom Label Solutions:** Customize labels to fit your organizational and regulatory needs, with multiple templates available for specific dispensing requirements.

**Troubleshooting Support:** Benefit from McCreadie Group's dedicated support to prevent and troubleshoot printing issues.

## About McCreadie Group

McCreadie Group specializes in software solutions that improve efficiency, safety, and research quality in clinical trial, investigational product management, and pharmacy education. Our commitment to innovation and customer service ensures you receive the best solutions for your needs.

## Why Vestigo

### Customized Label Formatting

Vestigo caters to a wide array of labeling needs, including protocol information, dispensing, prescription, patient identification, and more. Each label type supports numerous fields and symbology, allowing for a tailored fit to your specific requirements.

### Enhanced Inventory Management

Vestigo transforms inventory management in healthcare and pharmaceutical sectors by ensuring precise identification and tracking of investigational product (IP) inventory. Our labels enhance efficiency and accuracy, simplifying drug categorization in storage for orderly upkeep. They include drug details and barcoding for regulatory compliance. Barcoding options enable documentation and verification within Vestigo and IV workflow solutions, adhering to regulatory standards for comprehensive record-keeping.
