

Vestigo® Verify Central

Your One-Stop Solution for Protocol-Specific Monitoring Oversight

Vestigo Verify Central revolutionizes the way CRO managers oversee monitoring visits across sites using Vestigo and Vestigo Verify. This innovative portal provides a protocol-specific dashboard that showcases graphical summaries of protocol activities, along with direct links to in-depth statistics and reports. Experience unmatched oversight with features like:

- **Monitoring Activity Dashboard:** Visual summaries of scheduled and completed visits.
- **Monitoring Visit Reports:** Access comprehensive reports detailing monitoring activities.
- **Communication History:** Review all monitor-site communications efficiently.
- **Site IP Inventory Levels:** Keep tabs on Investigational Product inventory at each site.
- **Monitor Assignment Requests:** Easily request changes to monitor assignments.

Key Advantages

- **Gain Real-Time Insights:** Stay updated with real-time data on Vestigo Verify visits, IP inventory levels, and monitor-site communications. Access visit notes, action items, and follow-up communications seamlessly.
- **Efficient Protocol Assignment Management:** Use the "Assign Monitor" function to swiftly suggest additions or changes to monitor assignments at specific sites, enhancing control and oversight.

Why Vestigo Verify Central?

Vestigo Verify Central is the definitive solution for CRO managers dedicated to achieving the highest standard in protocol-specific monitoring oversight. By leveraging Vestigo Verify Central, you gain a powerful tool that offers real-time insights, streamlines management processes, and simplifies communication review, ensuring effective and efficient oversight.
